

ACT Prep
Summer 2014 Session

Welcome to this two week session in preparation for the June ACT. You will spend two hours daily for a total of twenty hours reviewing, learning tips and practicing for the exam. The score you earn will be reflected in the effort you put forth.

If your intention is to earn a high score the first time you take the ACT or to increase your score from previous attempts, your attention to the tricks and tips in the course are essential. We will not be able to reteach Algebra, Geometry, Trig, English Grammar and Comprehension in two weeks. Consequently, attendance, while not mandatory, is important to your success.

The daily routine will be broken up in the following format:

- Review of what each section of the test entails
- Tips on how to recognize what each question is asking you to do
- Practice of the skills
- Taking Practice tests/simulations

The schedule of the next ten days:

Day 1

Introduction to review session
What the ACT looks like
Practice abbreviated test and score it

Day 2

Reading

Day 3

Reading/Science

Day 4

Science

Day 5

The Essay Section/English Grammar

Day 6

English Grammar

Day 7

Math-pre-algebra

Day 8

Math- algebra, elementary and intermediate

Day 9

Geometry, Trig

Day 10

Final review session
Some practice with all four sections

Course materials:

It is a good idea to bring a notebook or spiral for any notes you wish to take.
All practice materials will be provided. You will need to bring a calculator for the math sessions.
The principal text will Peterson's The Real ACT Prep Guide, 3rd ed.
